

Списък на публикации извън дисертационния труд

1. Duncheva, G.; Dunchev, V.; Atanasova, M.; Todorov, V.; Argirov, Y.; Ivanova, M.; Petkov, B. Effects of Electron Beam Hardening Parameters on the Residual Stresses and Microstructures in C45 Steel Cylindrical Specimens. J. Manuf. Mater. Process. 2025, 9, 388. <https://doi.org/10.3390/jmmp9120388>
2. Dunchev V., Todorov V., Atanasova M., Ivanova M. Effect of cooling regimes on the microstructure of austenitic manganese steel alloyed with nickel and molybdenum. International Scientific Conference „Mechatronic, eco-and energy saving systems and technologies“, GABROVO, 2025, p.143-147, ISSN 2815-4924
3. Dunchev V., Todorov V., Atanasova M., Ivanova M. Applications of scanning electron microscopes and x-ray diffractometers in materials science and metallurgy. International Scientific Conference „Mechatronic, eco-and energy saving systems and technologies“, GABROVO, 2025, p.148-152, ISSN 2815-4924
4. Atanasova M., Todorov V., Ivanova M., Dunchev V. Investigation of the microstructure after electron beam welding of ductile cast iron and AISI 316L stainless steel. International Scientific Conference „Mechatronic, eco-and energy saving systems and technologies“, GABROVO, 2025, p.165-169, ISSN 2815-4924
5. Marieta Ivanova, Vladimir Dunchev, Petia Daskalova, INFLUENCE OF DEEP ROLLING PROCESS PARAMETERS ON SURFACE INTEGRITY CHARACTERISTICS OF HEAT-TREATED 42CrMo4 STEEL SPECIMENS, INTERNATIONAL SCIENTIFIC CONFERENCE, UNITECH'24, GABROVO, ISSN 1313-230X
6. Mariana Ichkova, Kalin Anastasov, Petya Peneva, Marieta Ivanova, Tihomir Atanasov, Petia Daskalova, Improvements in surface integrity and rotating bending fatigue strength of CuZn39Pb3 brass via a conventional diamond-burnishing process, J. Manuf. Mater. Process. 2026, 16 (11), 5557, ISSN: 2076-3417, <https://doi.org/10.3390/app16115557>
