

Списък на публикации извън дисертационния труд

1. M. Ivanova, V. Dunchev, P. Daskalova, Influence of deep rolling process parameters on surface integrity characteristics of heat-treated 42CrMo4 steel specimens. International Scientific Conference Unitech 2024, Gabrovo, Bulgaria, Vol 2 p. 3-17, 2024
2. K. Anastasov, P. Daskalova, Studying the effect of geometry and deformation force on the roughness of the machined surface of CuZn39Pb3 brass, after surface plastic deformation with tools from "Ferrotic-C". Project BG16RFPR002-1.014-0005 Centre of Competence, International Scientific Conference "Smart Mechatronic, Eco- and Energy Saving Systems and Technologies" Gabrovo 2025 p.264-271 ISSN: 2815-4924
3. K. Anastasov, P. Daskalova, Research and modeling of the influence of cutting parameters on the roughness of the machined surface when turning CuZn39Pb3 brass. ". Project BG16RFPR002-1.014-0005 Centre of Competence, International Scientific Conference "Smart Mechatronic, Eco- and Energy Saving Systems and Technologies" Gabrovo 2025 p.311-317 ISSN: 2815-4924
4. M. Ichkova, K. Anastasov, P. Peneva, M. Ivanova, T. Anastasov, P. Daskalova. Improvements in Surface Integrity and Rotating Bending Fatigue Strength of CuZn39Pb3 Brass via a Conventional Diamond-Burnishing Process. Appl. Sci. 2026, 16 (11), 5557; <https://doi.org/10.3390/app16115557>
5. A. Anchev, D. Kaisheva, G. Kotlarski, V. Dunchev, B. Stoyanov, M. Ormanova, M. Atanasova, V. Todorov, P. Daskalova, S. Valkov, Welding of Ti64Al4V and AL6082-T6 alloys by scanning electron beam. Metals 2023, 13, 1252 doi.org/10.3390/met13071252
6. J. Maximov, G. Duncheva, A. Anchev, V. Dunchev, K. Atanasov, P. Daskalova, Effect of Roller Burnishing and Slide Roller Burnishing on Surface Integrity of AISI 316 Steel: Theoretical and Experimental Comparative Analysis. Machines 2024, 12, 51 doi.org/10.3390/machines12010051
7. M. Ichkova, K. Anastasov, P. Daskalova, Governing factors – surface integrity correlations and optimizations of diamond burnishing process of chromium-nickel austenitic stainless steels of the 18/8 type. International Journal of Innovative Research and Scientific Studies, 8(3) 2025, p. 4136-4149 doi.org/10.53894/ijirss.v8i3.7450
8. J. Maximov, G. Duncheva, K. Anastasov, M. Ichkova, P. Daskalova, Influence of Previous Turning on the Surface Integrity Stability of Diamond-Burnished Medium-Carbon Steel. Machines 2025, 13(9), 864 doi.org/10.3390/machines13090864
9. K. Anastasov, M. Ichkova, V. Todorov, P. Daskalova The Effect of Optimised Combined Turning and Diamond Burnishing Processes on the Roughness Parameters of CuZn39Pb3 Alloys. Applied Sciences 2025, 15 (24), 13075; doi.org/10.3390/app152413075
